

The Spreader of Choice

# TRUCK MOUNT

## FERTILIZER & LIME SPREADERS

**Spread-Tek™**  
APPLICATION

Newton Crouch Spreader Exclusive

Newton Crouch Spreaders  
yield the most uniform  
spread pattern in the  
industry as easy as 1-2-3!

Newton Crouch Spreaders give  
unsurpassed features...

- Simplicity
- Ruggedly durable quality
- Our exclusive **Spread-Tek™**  
application system
- **Number One** Spread Pattern

### **Spread-Tek™ Application:**

Exclusively developed and used by  
Newton Crouch Inc., our **Spread-Tek™**  
application delivers consistent, accurate,  
and uniform spreading.

With ongoing research and testing since  
the 1960s, our engineers, customers, and  
product specialist have continuously  
reached the same findings:

**Spread-Tek's™ superior spread  
patterns result from five basic  
equipment variables:**

- **Spinner design**
- **Spinner position**
- **Spinner speed**
- **Chute location**
- **Material**

**It's a fact!** Newton Crouch Spreaders lay  
out the flattest, most uniform, most  
consistent spread pattern in the industry.

Operators state that Newton Crouch  
spreaders are the easiest to set up and  
adjust to achieve the most desirable  
pattern.

**"Calibrated the box in the field - it was  
almost perfect with the chart!"**

**Michigan Grower**

**Spread-Tek™**  
APPLICATION

**We'd like to prove it to you!**

# Truck Fertilizer & Lime Spreaders

## 3 ton to 10 ton capacity

WIDELY USED on FARMS, TURF, & in the FIELDS.

*Designed and built stronger to last longer.*

Year after year, field  
trials prove it.  
The original design,  
placement of key  
components, and  
easy field adjustment  
contribute to superior  
performance in all  
conditions.

**You can't beat a NCI Spread Pattern!**

# QUALITY BUILT FROM THE GROUND UP

Manufactured **heavier...sturdier and stronger...with more 304 stainless steel...** a design that's easier to operate and maintain.

## Simple:

A superior design with fewer moving parts, NCI Spreaders deliver low maintenance and simple setup for fertilizer and lime. Adjustable stainless chute and spinner speed allows for spread pattern testing up to 70 feet (varies with material.)

## Dependable:

Hydraulic system with a large oil tank, oversized filters, and sturdy spinner motors, allows NCI Spreaders to deliver more acres per day.

Various application rates achievable through one of the conveyor delivery systems - 16 inch or 24 inch stainless clinched chain and belt over chain. Conveyors driven by one of the many options: drive wheel, all hydraulic, or controller.

## Accurate:

When you want an even spread, insist on a Newton Crouch Spreader! Uniquely designed for consistent, accurate performance, the Newton Crouch spreader relies on Spread-Tek™ technology.

Newton Crouch Spreaders utilize many common, everyday parts therefore making NCI Spreaders field serviceable and the most practical choice in the market.

**FLARE BODY WITH  
FLOATATION TIRES**

**ROW GATOR**

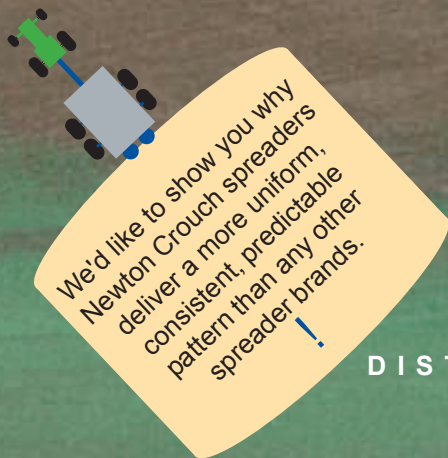

**HIGH SIDE TURF**

The Spreader of Choice

# Truck Mount Spreader Specifications

Standard Features	Enhancements	
Body Lengths from 8 to 15 Feet	Carbon Steel Hull	Window
304 Stainless Steel Hull	24" Stainless Clinched Conveyor Chain	Foam Marker
Floor - 7 Gauge	24" Belt Over Chain	Lights - LED, DOT
Sides - 13 Gauge	2" Rear Roller	Pump & PTO
Ribs/Side Runners/End Panels- 10 Gauge	Half Rate Kit	Tandem Pump
All Hydraulic	Drive Wheel Conveyor	Spinners in Parallel
16" Stainless Clinched Conveyor Chain	Mid-Tech TASC 6100 Controller	40 Gallon Oil Tank - Series
1 1/2" Front Roller	Mid-Tech ARC 6000 Controller	Rinse System
Full Length Stainless Tube	Raven 660 Controller	Undercoating
Spinners in Series	Guidance with Mid-Tech or Raven	Toolbox
Stainless Dishes & Blades	Stainless Highback Chute Divider	Foam Marker
20 Gallon Oil Tank with Sight Gauge	Tarp - Side to Side or Front to Back	Flared Body
Filters - Suction & Return	High Side Flare Float Package	High Side
Preset Spreader Functions	Extra Wide Catwalks
