

ORCHARD & VINEYARD SERIES

PULL TYPE SPREADERS
FERTILIZER & LIME

TAILOR BUILD YOUR SPREADER.

Engineered to fit in tight spaces, Newton Crouch's Orchard & Vineyard Spreader has an overall width of 67," a tight turning radius, and a low profile hopper. With features like customizable spread pattern and diverters, this spreader is optimized for delicate crops such as blueberries, grapes, olives, peaches, forestry, and more. Choose from a range of features to tailor build the best spreader for you.
