

GENERAL SAFETY PRECAUTIONS

This section of the Operator's Manual is intended to point out some of the basic safety practices for situations you may encounter during normal operation and maintenance of the spreader. Safety messages in other sections address specific hazards and operating practices. Additional precautions may be necessary. It is the responsibility of the operator to follow good safety practices at all times.

This symbol means:

**Attention!
Become Alert!
Safety is Involved!**

This symbol alerts your attention to information that involves your safety and the safety of others. It will be found on safety decals on your spreader. The words Danger, Warning, or Caution are used in association with the safety alert symbol.

- **DANGER** indicates an imminently hazardous situation that, if not avoided, will result in death or serious injury.
- **WARNING** indicates an imminently hazardous situation that, if not avoided, could result in death or serious injury.
- **CAUTION** indicates an imminently hazardous situation that, if not avoided, could result in minor or moderate injury.

Replace any DANGER, WARNING, CAUTION or Instructional Decal that is not readable or is missing.

Before using unit, read and understand the following General Safety Precautions. Failure to do so will result in serious damage to unit, conveyor, or yourself.

NOTE: This unit is agricultural equipment – designed for field use only. Your spreader will enable you to do a safe job if you use common safety practices and common sense.

LIMITATION ON LIABILITIES. It is agreed that, Seller's liability to the Buyer or any third party, for any losses or damages, of persons or property whether direct or otherwise, arising out of the purchase of product from Seller by Buyer shall not exceed the total amount billed and billable to the Buyer for the product hereunder.
