## B. IORUESCD

## LIQUID STORAGE TANKS / 2017

NORWESCO is proud to be the world's largest manufacturer of molded poly tanks. For over 38 years, our customers have relied on Norwesco tanks for premium quality and reliability in performance.

Norwesco tanks are manufactured to strict quality guidelines to ensure years of high-performance use. Rugged, impact-resistant, one-piece seamless polyethylene construction make our tanks suitable for the storage and/ or transport of most liquid chemicals. Norwesco tanks are manufactured using resins that meet FDA specifications to ensure safe storage of potable water. Norwesco tanks will be delivered to you with a fitting installed when applicable, but may also be ordered without a fitting.

Our goal is to make it easy and pleasant to do business with Norwesco. We consider our relationship with our customers to be one of our most valuable assets.

## VERTICAL STORAGE TANKS

Vertical storage tanks are most frequently used for bulk storage and mobile nursing applications. Norwesco vertical tanks feature tie-down slots, built-in graduated gallon indicators, an offset fill-opening and a self-vented, slosh-proof lid.

## SMALL VERTICAL STORAGE TANKS

## LARGE VERTICAL STORAGE TANKS

## ABOVE GROUND WATER STORAGE TANKS - BLACK OR DARK GREEN

Norwesco water tanks are manufactured using resins that meet FDA specifications to ensure safe storage of potable water. The black or green color limits light penetration, which reduces the growth of water-borne algae. These tanks are rated at 8 pounds per gallon, which means that they are for WATER STORAGE ONLY! They should not be used for chemicals, fertilizers or any other product. Where applicable, the tanks will carry the NSF approval. Please contact your distributor for more specific information regarding NSF approval.

## HORIZONTAL LEG TANKS

With the broadest leg tank line available, Norwesco manufactures a size that will fit your needs. Used primarily for transport and nursing applications, Norwesco's leg tanks feature molded-in legs that act as "baffles" to reduce sloshing. The 6025 gallon includes a baffle system to minimize fluid sloshing and increase safety aspects of transporting liquid. Support bands are shown below.

aMay ship UPS *Requires full length support and bands $\quad \Delta$ Requires full length support $\quad$ **16" hinged lid *** 22" hinged lid NOTE: The 1800 gallon tank consists of two 900 gallon tanks, each with a fitting installed, and a cylindrical "donut" that with the referenced connecting bar at the bottom of this page, holds the two tanks together but does not plumb them together. Ships unassembled.

HORIZONTAL LEG TANK BANDS
Norwesco bands are custom fabricated to support the Norwesco tanks and are galvanized or powder coated for added corrosion protection. Whether using the tank in a stationary position or for transport, bands are necessary to ensure that the tank retains its shape and integrity. See diagram at right.

## ELLIPTICAL LEG TANKS

This elliptical tank style is designed to provide the greatest capacity with the lowest center of gravity, making it the best design available for transporting larger volumes. Norwesco elliptical tanks feature molded-in legs that act as "baffles" to reduce sloshing and provide increased stability during transport. The 3250 gallon includes a baffle system to minimize fluid sloshing and increase safety aspects of transporting liquid. Norwesco elliptical leg tanks require full length bottom support as well as support bands, shown below.

## ELLIPTICAL LEG TANK BANDS

Norwesco bands are custom fabricated to support the Norwesco tanks and are galvanized or powder coated for added corrosion protection. Whether using the tank in a stationary position or
for transport, bands are necessary to ensure that the tank retains its shape and integrity.

| $\begin{aligned} & \text { TANK } \\ & \text { SIZE } \end{aligned}$ | A | B | C | NO. OF BANDS | $\begin{aligned} & \text { PART } \\ & \text { NO. } \end{aligned}$ |

## ELLIPTICAL TANK

Designed for larger volume applicator needs, the Norwesco elliptical tanks feature a low profile design and a low center of gravity for excellent visibility in the field and increased stability when towed. A deep sump permits complete drainage and the tanks feature an 8 "or 16 " fill-opening. Please refer to information below for steel supports.

| GALLON CAPACITY | WIDTH | OVERALL HEIGHT INCLUDING SUMP | LENGTH | $\begin{aligned} & \text { SUMP } \\ & \text { DEPTH } \end{aligned}$ | $\begin{aligned} & \text { FILL } \\ & \text { OPENING } \end{aligned}$ | OUTLET/ DRAIN | PREMIUM WEIGHT PART NO. WHITE |

*Includes 1 stainless steel baffle
NOTE: Skid not included with tank. See below for skids.

## ELLIPTICAL TANK SKIDS

Skids come with bands and bolts. See dimensional drawings at left.
$\left.\begin{array}{rccccccccc}\begin{array}{c}\text { TANK } \\ \text { SIZE }\end{array} & \begin{array}{c}\text { TANK } \\ \text { PART NO. }\end{array} & \text { A } & \text { B } & \text { C } & \text { D } & \text { E } & \text { F } & \text { PART } \\ \text { NO. }\end{array}\right]$

200 and 300 are galvanized; 500 and larger are black painted steel.
Replacement bands and hardware are available. Please contact Norwesco Customer Service for details.

## PCO TANKS

A multi-purpose tank, the PCO is well suited for nursery, agricultural and lawn care applications. These tanks feature self-supporting legs and do not require any saddles or steel supports. Flat spots are molded into both ends to provide mounting areas for agitation equipment

## FLAT BOTTOM UTILITY TANKS

The Flat Bottom Utility tanks are all purpose tanks used for a variety of applications. They are the perfect choice when looking for a tank to put in the bed of a pickup truck. They are often used in agricultural, industrial, manufacturing, auto detailing and liquid transportation industries for storage of water, wastewater, fertilizer and chemicals.

## PICKUP TRUCK TANKS

Designed to fit full-size, American made pickups, the 325 and 425 sizes have low profiles for better rear vision. They feature fill openings offset to the side of the tank for safety and easy access. A tough circular design adds strength. The 210 gallon tank fits both "mini" pickups and full-size models. Depending on which way the tank is turned, the bottom width can be either 39 " or 48 ".

## SPECIALTY FLAT BOTTOM HAULING TANKS

The Flat Bottom Hauling tank is ideal for use on flatbed or drop deck trailers. Large ribs eliminate the need for steel support bands and assist with reducing the sloshing of fluid. The tanks may be used for liquid fertilizer and other transport applications.

## SPECIALTY WATER HAULING TANKS

The low profile tanks may be used for storage or transport. They are an excellent choice when height limitations are a factor and are the perfect height for putting under your cottage or cabin.

| GALLON CAPACITY | WIDTH | OVERALL | LENGTH | $\begin{aligned} & \text { FILL } \\ & \text { OPENING } \end{aligned}$ | OUTLET/ DRAIN | WATER <br> WEIGHT ONLY <br> PART NO. |

## FREE STANDING TANKS

These tanks have been specifically designed with residential and commercial applications in mind. The dimensions of the tanks allow them to fit through a conventional doorway. The design of the freestanding/self-support tanks eliminate the need for a steel support frame.

## CONE BOTTOM TANKS

Norwesco offers a full range of cone bottom tanks designed for a variety of applications. The conical bottoms enable quick and complete drainage. As with all Norwesco tanks, the cone bottom tanks are molded of rugged, high density polyethylene and are both impact and chemical resistant. Please refer to page 15 for polyethylene or steel stands.

## CONTAINMENT BASINS

Our containment basins and tanks are impact and corrosion resistant and are molded as a one-piece, seamless unit. The 140, 250, 360,500, 600 and 1300 gallon sizes are "basin style". The 2800 "Tank In A Tank" is molded with a dome that can be cut off to enable it to be used as a containment tank. Required containment capacity may vary depending on application and location.

## CHEMICAL INJECTION TANK SYSTEMS

Our chemical injection tank system is designed for applications in the oil and gas industry. The package includes a leg tank, stand, and enclosed containment basin. The enclosed containment basins have a pump mount, a 2 " and a $3^{\prime \prime}$ female threaded connection for additional items such as solar panels. Does not include bands.

C

## POLYPROPYLENE DOUBLE THREADED BOLTED FITTINGS

Equipped with 316 stainless steel bolts and come standard with EPDM gaskets. Viton gaskets are available as an option for the fittings.

## CON-TECH STAINLESS STEEL DOUBLE THREADED BOLTED FITTINGS

These fittings are designed to install in heavy wall tanks. Please contact Norwesco Customer Service for additional information.

| 1" 316 SS double threaded bolted fitting with SS long bolts and EPDM gaskets | 63972 |
| EPDM gasket for 1" Part No. 64154 / Type A Viton gasket for 1 " Part No. 63978 |  |
| 11/2" 316 SS double threaded bolted fitting with SS long bolts and EPDM gaskets | 63973 |
| EPDM gasket for $11 / 22^{\prime \prime}$ Part No. 64155 / Type A Viton gasket for 11⁄2" Part No. 63979 |  |
| 2" 316 SS double threaded bolted fitting with SS long bolts and EPDM gaskets | 63974 |
| EPDM gasket for 2" Part No. 64156 / Type A Viton gasket for 2" Part No. 63980 |  |
| 3" 316 SS double threaded bolted fitting with SS long bolts and EPDM gaskets | 63975 |
| EPDM gasket for 3" Part No. 64152 / Type A Viton gasket for 3" Part No. 63981 |  |
| 2 gaskets required per fitting |  |

STAINLESS STEEL BOLTED HALF NIPPLE FITTINGS
DESCRIPTION

## STAINLESS STEEL DOUBLE THREADED BOLTED FITTINGS

Bolts are threaded into back plate - no welds or bolt holes that can be potential points of leakage. Fittings come standard without a gasket and require a single gasket installed on the inside of the tank. Available gaskets are cross-linked polyethylene, EPDM or Viton.

## STAINLESS STEEL SINGLE THREADED BOLTED FITTINGS

EPDM gasket for 3" Part No. 63223 / Type A Viton gasket for 3" Part No. 63226
Cross-linked polyethylene gasket for 3" Part No. 63043 (1 required)

## MANUFACTURING \& DISTRIBUTION

## WARRANTY

NORWESCO offers a three year warranty from date of manufacture on tanks shown in this brochure. Should a defect appear within the warranty period Norwesco will supply a new, equivalent tank in replacement thereof. Norwesco's liability is limited to the value of the tank itself and specifically excludes the cost of installation and/or removal or consequential damages. Please contact your chemical supplier or Norwesco Customer Service for chemical resistance information. Tank dimensions and capacities may vary slightly and are subject to change without notice.

[^0]:    *16" hinged lid $\quad$ Fitting is loose, not installed

[^1]:    *Tank includes molded on manhole extension

[^2]:    *Polyethylene stand **Stand not available for this tank tDistance from bottom of cone to ground

[^3]:    *Includes Tank, Stand and Basin
